

FAQs: Contactors

1. What exactly designates a contact to fall within these ratings: A150, A300, A600?

What exactly designates a contact to fall within these ratings: A150, A300, A600?

The NEMA contact ratings are defined in NEMA ICS 5: Industrial Control and Systems, Control Circuit and Pilot Devices. This standard is available for free downloading at the NEMA website. You can click on the following link:
