

# CONGRESSIONAL GRID INNOVATION EXPO

5:00 PM - 7:00 PM

**WEDNESDAY, SEPTEMBER 18**  
**RAYBURN FOYER**

**RAYBURN HOUSE OFFICE BUILDING**

*Light refreshments will be provided*

Explore the latest innovative technologies and projects from leading manufacturers and electric companies from around the country at the Congressional Grid Innovation Expo. Find out how electric companies and vendors are deploying smart energy infrastructure, including electric vehicle charging, energy storage, microgrids, advanced metering infrastructure, smart cities and communities, and more. These projects showcase the customer benefits that come from making the electric grid infrastructure smarter, more reliable, resilient, flexible, and secure.

## Speakers Include:

### **Rep. Marilyn Strickland**

Co-Chair, Congressional Grid Innovation Caucus

### **Rep. Robert Latta**
